BBN: we get to the heart of machine tools

SERVICING OF HIGH PRECISION SPINDLES ALL TYPES AND BRANDS

BBN specializes in repairing and refurbishing spindles and electrospindles of all brands and types as part of a process focused on quality, reliability and durability.

This technical expertise builds on the know-how of a highly skilled team and meets stringent quality criteria while respecting specific manufacturer recommendations.

Each spindle is awarded BBN certification, including vibration signature.

PREVENTIVE SERVICE

- Drawing up a preventive maintenance schedule
- Planning interventions based on production requirements
- Keeping an intervention schedule and history
- Fixed price by spindle type

EXPRESS SERVICE

- Rapid intervention – quick turnaround
- Quality "Swiss finish" guaranteed
